## 2023 Legislative Session Ends: Multiple Provisions Sent to the Governor's Desk that Impact PSRS/PEERS

During the 2023 Missouri legislative session that began Wednesday January 4, 2023, the General Assembly introduced more than 2,300 bills. PSRS/PEERS closely monitored over 250 of those bills and completed more than 45 fiscal impact requests. The session ended on Friday May 12, with no legislation that could negatively impact PSRS/PEERS passing. Two bills containing provisions that positively impact PSRS/PEERS and its membership, Senate Bill 75 (HCS SS SB 75) and Senate Bill 20 (CCS SB 20), were passed by the General Assembly and sent to the governor's desk.

These provisions include:

- Reinstatement of a 2.55% benefit factor for PSRS members who retire with 32 or more years of service. Currently, the benefit factor is 2.5%. This provision would result in higher benefit amounts for new retirees who qualify.
- Expansion of the Critical Shortage Employment time period limit from two years (24 months) to four years (48 months).
- Expansion of the potential number of Critical Shortage Employment positions a school district can hire for certificated teaching positions.

- An increase in the salary limit for PSRS retirees working in non-certificated positions. The salary limit for PSRS retirees working in non-certificated positions would change to 133% of the annual Social Security earnings limit for individuals who are under full retirement age from August 28, 2023 through June 30, 2028. The limit would then change again to 100% of the annual Social Security earnings limit for individuals who are under full retirement age thereafter.
- A same-sex "pop-up" that would allow certain retirees who nominated a same-sex domestic partner as beneficiary for lifetime monthly benefits under a Joint-and-Survivor benefit plan or as a beneficiary under a Term-Certain benefit plan to have their monthly retirement benefit "pop-up" to the amount they would have received if they had not elected to receive reduced monthly benefits.

As of the publication date of this newsletter, the governor has not yet acted upon the bills mentioned above. The governor has until July 14 to act upon legislation. The provisions described above will become effective August 28, 2023 unless the governor vetoes them.

## PSRS/PEERS Investment Philosophy

‘ESG’ and ‘proxy voting’ are two terms that have surfaced in the pension world recently, specifically regarding the investment of pension assets. We will discuss those topics within this newsletter but also focus on the overriding PSRS/PEERS investment philosophy. The Board of Trustees of PSRS/PEERS, and by extension the investment staff, have a fiduciary responsibility to the members of the Systems. To emphasize that responsibility, the Board has adopted three guiding principles to govern all investment activity at PSRS/PEERS: (1) To act in the exclusive interest of the members of the Systems, (2) to maximize total investment return within prudent risk parameters and (3) to preserve the long-term purchasing power of the Systems.

### ESG and Proxy Voting

Environmental, Social and Governance (ESG) investing refers to the practice of using investments to influence the environmental, social and governance practices of corporations. ESG has become a divisive topic as some states (i.e., California) have strongly encouraged institutional investors, such as public pension plans, to pursue ESG-focused investments. Alternatively, other states (i.e., Missouri and Texas) have put pressure on institutional investors to abandon the pursuit of ESG investing. Some aspects of ESG investing have merit, especially in the area of corporate governance (the “G” in ESG). Companies that have shareholder-friendly policies and procedures in place generally outperform their peers.

The fallout from the ESG debate has spilled over into another topical area: proxy voting. Generally, the holders of common stock of a corporation are entitled to vote on issues under consideration at the company’s annual meeting. Most shareholders (i.e., PSRS/PEERS) do not attend annual meetings in person, but they instead submit votes by mail or electronically. This is referred to as “proxy voting.” In the case of large index funds such as those managed by BlackRock, Vanguard and Fidelity, the manager typically votes all proxies rather than the investor (i.e., PSRS/PEERS). These large index fund managers have been accused of using their proxy voting clout to push companies to adopt ESG-friendly policies which may not be consistent with maximizing returns to shareholders.

As discussed earlier, PSRS/PEERS has a singular focus that drives all investment decisions: maximize risk-adjusted returns for our members. This is true when it comes to ESG considerations and proxy voting. Until recently, PSRS/PEERS delegated the responsibility for voting proxies to outside investment managers. Investment managers were required to vote all proxies in the best interests of PSRS/PEERS members.

However, that guideline was open to interpretation by each manager. In late 2022, the PSRS/PEERS Board and investment staff chose to retain responsibility for voting proxies.

PSRS/PEERS contracted with a third-party proxy voting service and instructed them to vote all proxies according to a specific policy selected by the Board. This policy is “governance-focused” and emphasizes the importance of good corporate governance in maximizing shareholder returns.

Furthermore, it recognizes that company management is often in the best position to evaluate the merits of other proposals that may relate to environmental and social issues. So, the “governance-focused” policy will generally follow the voting recommendations of company management.

The Board maintains an Environmental, Social and Governance (ESG) Investment Policy that requires PSRS/PEERS assets to be invested in the best economic interest of the Systems and not for the purpose of establishing or endorsing other goals or objectives. This policy, in conjunction with the Board’s recent action to take full control of proxy voting, signifies the Board’s commitment to make decisions that are solely in the best interest of our members.

### PSRS/PEERS Investment Performance

The fiscal year reporting period for PSRS/PEERS ends each June 30. Through April 30, 2023, the Systems had completed a large portion of fiscal year 2023 with solid investment returns despite a challenging market environment. The volatility in the markets has

been caused by a myriad of issues including elevated inflation, rising interest rates, a slowing economy, distress in the banking industry, the Federal debt ceiling and the war in Ukraine. The estimated PSRS/PEERS investment return for fiscal year 2023 (July 1, 2022 through April 30, 2023) was approximately 4.1%.

A steady investment philosophy and a diversified portfolio will allow the Systems to produce consistent investment returns (regardless of the market environment) over long periods of time to support the benefits of the PSRS/PEERS membership. The Systems’ long-term investment objective (actuarial assumption)<sup>1</sup> is 7.3% per year. We will not achieve that return goal every year but expect to meet or exceed that return over long periods of time. For example, the total plan return of 8.1% over the last 10 years exceeds both the historical long-term investment objective (actuarial assumption) and the total plan policy benchmark return<sup>2</sup> of 6.6%.

The market value of invested assets for PSRS and PEERS combined was approximately \$54 billion on April 30, 2023, making the joint entity larger than all other public retirement plans in Missouri combined, and the 44<sup>th</sup> largest defined benefit plan in the United States. For the most recent PSRS/PEERS investment news, visit us on the web at [www.psrs-peers.org](http://www.psrs-peers.org).

<sup>1</sup> The Board of Trustees long-term investment return objective was reduced to 7.3% effective July 1, 2021.

<sup>2</sup> The plan policy benchmark is a standard to measure investment performance and indicates the return of the PSRS/PEERS asset allocation if passive market rates of return were achieved.

## Steliga and Knes Retain Board Leadership Roles for 2023-2024 School Year

Dr. Jason Steliga

Beth Knes

At the April PSRS/PEERS Board of Trustees meeting, the Board re-elected Dr. Jason Steliga to serve as chair and Beth Knes to serve as vice chair for the 2023-2024 school year (July 1, 2023 to June 30, 2024).

Dr. Steliga, an elected PSRS member, joined the Board October 21, 2015. He has 20 years of teaching experience, and is presently teaching accelerated and general chemistry at Park Hill South High School, located in Riverside, MO.

Beth Knes is a governor-appointed trustee who joined the Board on August 22, 2017. She retired from public education in 2014. In her most recent position, she served as executive director of student services for the Rockwood School District. Beth is currently active in Alpha Delta Kappa, a group of former educators who do altruistic work and provide scholarships for high school students who wish to pursue education careers.

"Jason and Beth are proven leaders for our Board," said PSRS/PEERS Executive Director Dearld Snider. "I have no doubt they will continue to serve our members' best interests as trustees."

## PSRS/PEERS Welcomes Katie Webb to Board of Trustees

Katie Webb

Katie Webb has joined the PSRS/PEERS Board of Trustees as an active PSRS member. She fills an open seat created by the retirement of Dr. Melinda Moss in October 2022. Her term runs from February 6, 2023 through June 30, 2024.

Since 2009, Webb has served as a K-5 music teacher at Mark Twain Elementary in Hannibal, Missouri. She also served as administrative intern at Veterans Elementary during the summer of 2022 where her responsibilities included preparing curriculum, creating referral forms and handling student discipline situations.

She holds a Bachelor of Arts degree in English and a Master of Arts in elementary education from Truman State University, as well as an Education Specialist degree in educational leadership from Arkansas State University.

Webb has been a member of the Missouri State Teachers Association (MSTA) since 2008 and has

served in several leadership roles including building representative, vice president and president for the Hannibal Community Teacher Association (CTA); executive committee member, vice president and president for the Northeast Region Teachers Association; and chair for MSTAs statewide committee on education policy. She currently serves as chair of the MSTAs Articles, Bylaws & Rules committee. Webb serves as the lighthouse coordinator for the Leader in Me program at her school and is an active member of the Parent Teacher Organization (PTO).

"Katie's teaching and leadership experience are impressive, and she has demonstrated her passion for working on behalf of her fellow educators," said PSRS/PEERS Executive Director Dearld Snider. "We welcome her to the Board and look forward to her insight and input."

The Board consists of four elected and three governor-appointed trustees. Elected trustees are selected by vote of the members and retirees of both Systems. In this case, Webb was the only candidate meeting filing qualifications, therefore, no election was required.

## Dr. Kyle Collins to Retire, Step Down from the PSRS/PEERS Board of Trustees

Executive Director, Dearld Snider with Dr. Kyle Collins at the April Board Meeting

At the April 17, 2023 Board of Trustees meeting, the Board and staff honored Dr. Kyle Collins for his Board service. Dr. Collins will retire with PSRS on July 1 and as a result, will step down from his seat as a trustee representing active PSRS members effective July 1, 2023.

He was elected to the Board in May 2020 and was serving a four-year term from July 1, 2020 to June 30, 2024. During his time as a trustee, his educational and administrative background and experience made him a valuable and effective advocate for PSRS and PEERS members.

"I am humbled and thankful to have had the opportunity to serve the membership of PSRS/PEERS as a Trustee," Collins said. "My time as a member on the Board has been one of the most educational and rewarding experiences of my career. It has been an honor to serve with my fellow Board of Trustees members. I am inspired by their dedication, integrity and their commitment to the success of our retirement

system." He added, "The leadership and staff of the PSRS/PEERS organization are second to none. Their knowledge, professionalism, ability and commitment to our membership gives me great confidence that PSRS/PEERS will continue to be one of the most outstanding retirement systems in the nation."

Dr. Collins has more than 25 years of educational experience, most recently as superintendent of the Brookfield R-III School District. Dr. Collins holds a Bachelor of Science degree in government and a master's in secondary administration from Northwest Missouri State University, as well as a doctorate in educational leadership and policy analysis from the University of Missouri-Columbia.

**"Dr. Collins' experience and long-term service to education has brought a unique perspective to the Board and has helped shape our discussions on policy through his vast knowledge of Missouri politics and educational history. I know that his impact on the field of education is not finished and am hopeful, as he ventures off into the world, that he enjoys this well-deserved retirement."**

**– Dr. Jason Steliga, PSRS/PEERS Board Chair**

"It has been a real pleasure working with Dr. Collins," said PSRS/PEERS Executive Director Dearld Snider. "He has been an integral and important part of our Board for the last three years, and we have benefitted greatly from his knowledge, experience and insight as a school administrator. We are grateful for his contributions to the Board and to the Retirement Systems. We wish him all the best as a PSRS retiree."

According to PSRS/PEERS statutes and regulations, Dr. Collins' seat will remain vacant until filled at the next regularly scheduled Board of Trustees election, which will take place in the spring of 2024.

# Board Sets Interest Rates on Contributions; Reinstatements and Service Purchases

## Interest on Contributions

At the April meeting of the PSRS/PEERS Board of Trustees, the Board voted to increase the interest rate active members earn on their contributions from 2% to 4% for the 2023-2024 school year. The interest rate is based on interest rates for deposit accounts and short-term securities, which have increased significantly. Interest is credited June 30 each year on the total contributions and interest in a membership, as of the previous June 30. This occurs until the membership is closed. Memberships are closed due to retirement, a refund of a member's contributions and interest, the death of the member, or when the member is not vested and is out of PEERS-covered employment for five consecutive school years.

The interest rate has no impact on the amount of retirement benefits. Interest is paid out through lump-sum payments made to members who request refunds of their contributions and the interest earned on those contributions, and to the beneficiaries of deceased members.

## Interest on Reinstatements and Service Purchases

In accordance with PSRS/PEERS regulations, the Board voted to maintain the interest rate charged on the reinstatement of previously forfeited service and applicable service purchases at 7.3%. This is the Systems' assumed, or target rate of return on investments.

# REMINDER: Retiree Work Limits Waived on Substitute Teaching Through June 30, 2025

On July 1, 2022, Governor Mike Parson signed legislation waiving the working after retirement limits on part-time or temporary-substitute work performed by PSRS/PEERS retirees as substitute teachers for covered employers or third-party providers between July 1, 2022 and June 30, 2025.

For working after retirement purposes, substitute teaching is defined as follows:

## K-12 Schools and Third-Party Providers

- Instructing or guiding the studies of students in a teaching position which requires a DESE-issued certificate, in place of a regularly employed teacher who is temporarily unavailable.

## Community Colleges

- Instructing or guiding the studies of students in a teaching position which is certified by the executive officer of the institution according to Missouri law, in place of a regularly employed teacher who is temporarily unavailable.
- A regularly employed teacher is considered temporarily unavailable when the teacher's position is unfilled due to the absence of the regular or former teacher for one year (12 months) or less.

**Keep in mind that work performed in other positions not covered by this waiver, including but not limited to work as a bus driver, coach, administrator, nurse or office worker, continues to count toward any applicable work limits and should be tracked to avoid the loss of benefits.**

## Your Benefits

## Need to Change Your Income Tax Withholding?

You can change your federal or Missouri income tax withholding any time by logging in to Web Member Services at [www.psrs-peers.org](http://www.psrs-peers.org).

You can also make changes by submitting the appropriate tax withholding form, found on the Forms page of our website.

## Sign Up to Receive Electronic Communication

You can receive important information about your Retirement System and benefits electronically rather than on paper. It's an easy way to help us communicate with you faster, save natural resources and save money while keeping you informed.

Simply log in to Web Member Services at [www.psrs-peers.org](http://www.psrs-peers.org) and select "My Profile" at the top of the screen.

From there, select "Change Communication Preferences" to select electronic delivery options for your newsletters, annual **Benefit Statements**, Board meeting summaries and other Retirement System news.

## Questions About PEERS Retirement? We are Here to Help

Even after retirement, you may have questions or need information about your membership or benefits. Rest assured, our Information Center specialists are here to assist you and are dedicated to getting you what you need quickly and accurately.

*Our goal is to provide exceptional service, every time.*

Feel free to reach out to us with any questions. Our Information Center can be reached by phone at (800) 392-6848 or email [psrspeers@psrspeers.org](mailto:psrspeers@psrspeers.org).

*"I have spoken to three different people in the past year and could not be more impressed with the kindness, helpfulness, professionalism and patience I have received each time."*

*"Everyone I have spoken with has been informative, courteous and friendly. They speak clearly. They answer my questions. I can understand what they say. If someone can't immediately answer my question then they get help or get back with me. I'm so thankful for reliable and courteous service."*

Four Things You Can Do to Keep You Cyber Safe

**Turn on Multifactor Authentication**

Implement multi-factor authentication on your accounts and make it significantly less likely you'll get hacked.

**Update Your Software**

Update your software. In fact, turn on automatic updates.

**Think Before You Click**

Think before you click. More than 90% of successful cyber-attacks start with a phishing email.

**Use Strong Passwords**

Use strong passwords, and ideally a password manager to generate and store unique passwords.

Cyber scams are nothing new. Every day, con artists are looking for the best “marks.” Think you’re not worth being the target of online predators? Think again! Hackers don’t need to know how much is in your bank account to want to get into it. Your identity, your financial data, what’s in your email ... it’s all valuable. And cyber criminals will cast as wide a net as possible to get to anyone they can. They’re counting on you thinking you’re not a target. So how can you reduce the chances of falling for the scams? Learn the signs! Let’s start with the basics of “cyber hygiene,” easy and common-sense ways to protect yourself online.

Let’s Start with Turning on Multifactor Authentication

It goes by many names: Two Factor Authentication. Multifactor Authentication. Two Step Factor Authentication. MFA. 2FA. They all mean the same thing: opting-into an extra step when trusted websites and applications ask you to confirm you’re really who you say you are. Your bank, your social media network, your school, your workplace ... they want to make sure you’re the one accessing your information. So, industry is taking a step to double check. Instead of asking you for a password – which can be reused, more easily cracked or stolen. They can verify it’s you by asking for two forms of information:

**Something You Know**

Like a PIN number or your sister’s middle name.

**Something You Have**

Like an authentication application or a confirmation text on your phone.

**Something You Are**

Like a fingerprint or faceID.

That second step is a lot harder for a hacker to fake. So, prove it’s you with two ... two steps, that is.

Now that you know what it is, you’ll see prompts for multifactor authentication all over. So, opt-in. Start with your email account, then financial services, then social media accounts, then online stores and don’t forget your gaming and streaming entertainment services!

Update Your Software. In Fact, Turn on Automatic Software Updates if They’re Available.

Bad actors will exploit flaws in the system. Network defenders are working hard to fix them as soon as they can, but their work relies on all of us updating our software with their latest fixes. Update the operating system on your mobile phones, tablets and laptops. And update your applications – especially the web browsers – on all your devices too. Leverage automatic updates for all devices, applications and operating systems.

Think Before You Click

Have you ever seen a link that looks a little off? It looks like something you’ve seen before, but it says you need to change or enter a password. Or maybe it asks you to verify personal information. It could be a text message or even a phone call. They may pretend to be your email service, your boss, your bank, a friend. The message may claim it needs your information because you’ve been a victim of cybercrime. It’s likely a phishing scheme: a link or webpage that looks like a legitimate, but it’s a trick designed by bad actors to have you reveal your passwords, Social Security number, credit card numbers, or other sensitive information. Once they have that information, they can use it on legitimate sites. And they may try to get you to run malicious software, also known as malware. Sadly, we are more likely to fall for phishing than we think.

If it’s a link you don’t recognize, trust your instincts and think before you click. We all need to Phight the Phish!

Use Strong Passwords

Did you know the most common password is “password”? Followed by “123456”? Using your child’s name with their birthday isn’t much better. Picking a password that is easy is like locking your door but hanging the key on the doorknob. Anyone can get in.

Here are some tips for creating a stronger password. Make sure it’s:

- Long – at least 15 characters
- Unique – never used anywhere else
- Randomly generated – usually by a computer or password manager. They’re better than humans at being random.

Make sure you’re not recycling the same password across all your apps and websites. You can use a password manager to store all of your passwords. That way you don’t have to remember them all! If you go this route, make sure your master password is strong and memorable and secure your password manager account with MFA!

Being Cybersmart is Contagious

Our world is increasingly digital and increasingly interconnected. So, while we must protect ourselves, it’s going to take all of us to really protect the systems we all rely on. Being cyber smart is contagious. Take the four basic steps outlined above and help two friends do the same.

For more information, visit CISA’s Cybersecurity Awareness Month Resources page at <https://www.cisa.gov/resources-tools/resources/cybersecurity-awareness-month-publications>.
